Daily Stag

Weather

Due to the enormous amount of rain, the *staff was deprived* of a afternoon in the luxurious riverbed. Jeremy's brilliant detective skills concluded that the big black clouds in the sky indicated that it would rain (**DUH**). Tomorrow's weather could bring the staff to the reservoir; or maybe not.

Motorpool

After finally fixing some of the front portions of the camp's transportation system, and the parking lot, the lazy-mobiles are now free to park. However, the rear portions are in dire need of some serious reparations. Thanks to **tireless** *White Stag Staff* members, some of those water-holes have now been reduced to sludge.

New Staff Member

Thanks to the help of camp ranger we have enlisted some help on the parade field. His unmatched sense of direction and courage in battle provide examples and guidance for us all. His jaws of steel help to sheep herd us lowly staff members to all of our destinations, rain or shine. If you see this staff member, please inform them that they are in need of a stave, a uniform, a shave, and the intelligence necessary to use a latrine. Now that the showers are up and running, please direct this individual to a stall and turn on the water.

What Do They REALLY Do In Town

An anonymous stri##er, OOPS! I mean tipper has informed the *Daily Stag* that the adults traveling into town may have been seen in other locations besides the store. However, they were quite reluctant to name specific locations.
